#### TOUR OVERVIEW

The 2026 Niigata & Sado Island Craft and Cultural Tour of Japan offers an immersive journey into regional Japanese culture, traditional craftsmanship, and rural life. Located less than two hours from Tokyo by shinkansen, Niigata is remarkably accessible yet feels a world away from Japan's crowded tourist centres, making it ideal for travellers seeking a deeper and more authentic experience.

Blessed with fertile land and a strong agricultural heritage, Niigata has long supported prosperous primary industries, from rice and sake to metalworking and traditional crafts. These industries have shaped a culture of exceptional craftsmanship, which continues to thrive today. On nearby Sado Island, centuries of history—from gold mining to performing arts—add further richness to the region's cultural landscape.

This brand-new small group tour of Japan is designed in Journey to the East's signature style, with a maximum of eight travellers, ensuring a slow-paced, personal, and comfortable travel experience. Enjoy carefully selected accommodation, comfortable transport, excellent regional cuisine, and expert local guides who bring each destination to life.

Perfect for senior travellers interested in culture, history, and meaningful travel, this journey reveals a less-visited side of Japan—where traditions are lived, landscapes remain unspoiled, and genuine encounters await in Niigata and Sado Island.

\*Accommodation will be as planned below or similar.

2	Transfer to Niigata and guided tour of Tokamachi	<p>After meeting your guide in the hotel lobby, travel aboard Japan's famous shinkansen (bullet train) as you journey across Honshu to Niigata on the Sea of Japan coast. Smooth, spacious and efficient, the Shinkansen offers a relaxed way to experience Japan's modern engineering while enjoying views of the countryside.</p> <p>Niigata Prefecture is renowned for its deep agricultural heritage and is Japan's leading rice-producing region. Over centuries, this abundance has shaped local culture and craftsmanship, giving rise to exceptional sake brewing, high-quality cutting tools and fine textile production.</p> <p>This morning, visit a family-run textile workshop that has been producing local fabrics for nearly a century. The cultural immersion continues with an introduction to one of Niigata's most important industries—sake making.</p> <p>This evening, settle into a traditional onsen ryokan, known for its warm country hospitality. Enjoy a beautifully prepared dinner featuring Niigata's celebrated rice, followed by a soothing soak in the onsen hot spring baths. You will sleep on comfortable futon bedding laid over tatami mats in a Japanese-style room—an authentic and memorable cultural experience, perfectly suited to a slower, more reflective style of travel.</p>	Breakfast, Lunch, Dinner	Hinanoyado Chitose [Japanese style room with private bathroom]
3	A day of cultural exploration of Niigata	<p>This morning, enjoy a guided walk through beautiful terraced rice paddies, offering a rare glimpse into Japan's traditional rural landscape. The route follows mostly sealed paths and is gentle and easy-paced, making it suitable for senior travellers.</p> <p>Next, take part in a hands-on country cooking experience with local women. You will learn to prepare a simple, home-style meal using fresh local vegetables, with a special focus on traditional food-preservation techniques developed to sustain families through Niigata's long, snowy winters. This is a wonderful opportunity for cultural exchange and insight into everyday rural life.</p> <p>In the afternoon, visit several local art and cultural sites, including Nishikigoi no Sato, a peaceful garden dedicated to nishikigoi (ornamental koi carp), one of Niigata's most celebrated regional products.</p> <p>In the early evening, travel to the city of Nagaoka, where you will check in to a comfortable Western-style hotel for an overnight stay.</p>	Breakfast, Lunch, Dinner	Hotel New Otani Nagaoka [Standard Twin Room]

A visit to the shrine's upper garden area rewards you with sweeping views over the Niigata Plain and the Sea of Japan, offering a wonderful introduction to the region's spiritual and natural heritage.</p> <p>The remainder of the day is dedicated to exploring Niigata's renowned metalworking tradition. Visit a selection of knife-making and metalwork factories, where you can observe the scale, precision, and craftsmanship of this highly developed local industry. These visits provide insight into the techniques and skills that have made Niigata one of Japan's leading centres for metal production.</p> <p>In the early evening, arrive in Niigata City, the capital and cultural hub of Niigata Prefecture. Beyond the exhibits, the stately building and beautifully landscaped gardens offer a glimpse into the lifestyle and legacy of eight generations of wealthy farmers, reflecting the region's social and cultural heritage.</p> <p>Next, visit Ponshukan, a fun sake tasting venue where walls are lined with sake boxes from across Niigata. 6	Guided tour of Sado Island	<p>Once a place of political exile, Sado Island flourished in the 17th century with the discovery of gold and silver, shaping both its industry and culture. In July 2024, the island's gold and silver mine sites were designated a UNESCO World Heritage Site, and the island now features informative museums and historical sites that bring its fascinating past to life.</p> <p>After arriving by Jetfoil, begin at the modern Sado Gold Mine Information Centre, where you will gain an overview of the island's history and its significant sites. Then, explore the actual mine sites and related facilities, including the Kitazawa Flotation Plant, a visually striking site that evokes the atmosphere of the island's mining heyday.</p> <p>In the late afternoon, check into a clifftop hotel overlooking the Sea of Japan, offering stunning panoramic views. Your evening culminates in a truly unique cultural experience: "Takigi Noh", a Noh theatre performance performed outdoors by torchlight. Originating over 1,000 years ago in Nara as a religious ritual, Takigi Noh blends spirituality, artistry, and magical ambience, creating a once-in-a-lifetime experience that resonates deeply with the island's heritage.</p>	Breakfast, Lunch, Dinner	Hotel Azuma [Oceanview Garden Twin]
7	Guided tour of Sado Island	<p>This morning, enjoy a hands-on cultural experience on Sado Island with a ride on a hangiri, a traditional washtub boat. These boats, handmade from cedar and bamboo grown on Sado, were once essential for the local fishing communities of the Ogi Peninsula. While hangiri are no longer used commercially, this gentle ride provides a unique glimpse into Sado's historic coastal lifestyle and traditional fishing techniques.</p> <p>Continue your exploration of the island's history with a guided tour of Shukunegi, a charming village tucked into the back of a cove. Historically home to sengokubune merchant ships and shipbuilders, Shukunegi prospered in the 17th century thanks to the Sado Kinzan Gold Mine and later became a stop for the kitamaebune trading vessels. The village is famous for its densely packed wooden houses built with ship planks, and it has been designated a National Important Preservation Area for Traditional Buildings and Architecture, offering a fascinating window into Japan's maritime heritage.</p> <p>In the afternoon, enjoy a fun and informal introduction to taiko drumming, Japan's iconic percussion tradition. Sado Island is home to Kodo, one of Japan's most famous taiko ensembles, and this workshop lets you experience the rhythms in a relaxed, hands-on way, perfect for a memorable and playful cultural moment.</p>	Breakfast, Dinner	Hotel Azuma [Oceanview Garden Twin]

This centuries-old method has shaped the city's culinary heritage and includes pioneering conservation practices. Wander the historic main street and see salmon hanging from shop ceilings to dry, a living tradition that reflects Murakami's deep connection to its natural environment and local cuisine.</p> <p>Murakami is also one of the northernmost areas of Japanese green tea production, with a rich 400-year history.
